

# 16th European Solar Physics Meeting

## Wednesday, 8 September 2021

### Poster Session 6.1 (11:00 - 12:31)

-Conveners: Etienne Pariat

time	[id] title	presenter
11:00	[117] Slow magnetoacoustic waves in gravitationally stratified two-fluid plasmas in strongly ionized limit	Mr ALHARBI, Abdulaziz
11:13	[240] Relaxing the assumption of subsonic flows in Enthalpy Based Thermal Evolution of Loops	Mr RAJHANS, Abhishek
11:26	[496] Formation of the IRIS OI and CI lines in a flare	BHATNAGAR, Aditi
11:39	[251] On the inference of electric currents in the solar photosphere	Dr BORRERO, Juan Manuel
11:52	[533] Coronal cavities in linear polarization observations	RUMIŃSKA, Agnieszka
12:05	[338] The spatial and temporal variability of the Mg II h&k lines at quiet sun centre observed by IRIS	Mr ALHARBI, Ahmad
12:18	[250] Multi-resolution inversion of solar chromospheric data	PASTOR YABAR, Adur
