

# 16th European Solar Physics Meeting

## Wednesday, September 8, 2021

### Poster Session 6.3 (11:00 AM - 12:31 PM)

-Conveners: Mats Carlsson

time	[id] title	presenter
11:00 AM	[440] Helium line radiances in the solar corona	ANDRETTA, Vincenzo
11:13 AM	[119] Inferring impulsive heating of quiet solar corona using machine learning	Mr UPENDRAN, Vishal
11:26 AM	[321] 2.5-dimensional MHD simulation of coronal rain	LI, Xiaohong
11:39 AM	[225] MHD Simulation of Solar Prominence Formation and Eruption	ZHAO, Xiaozhou
11:52 AM	[261] Transient small-scale brightenings in the quiet solar corona: a model for campfires observed with Solar Orbiter	CHEN, Yajie
12:05 PM	[437] Non-thermal parametric variations using Si IV and O IV spectral lines	Ms K RAO, Yamini
12:18 PM	[477] In-flight radiometric calibration of Metis using stars	DE LEO, Yara
