

Hydrosim meeting

Monday, 2 February 2015

Galaxy Clusters: (Chairp.: G. Murante) - Conference room (10:30 - 10:55)

time	[id] title	presenter
10:30	[3] The mass accretion rate of galaxy clusters: a measurable quantity	DE BONI, Cristiano

Galaxy Clusters: (Chairp.: G. Murante) - Conference room (11:25 - 13:05)

time	[id] title	presenter
11:25	[4] Pseudo phase space density with Dianoga	MUNARI, Emiliano
11:50	[5] Temperature Structure and high-z clusters	RASIA, Elena
12:15	[6] SZ scaling relations in Dianoga simulations	FABIAN, Dunjia
12:40	[7] Pressure of the hot gas in simulations of galaxy clusters	PLANELLES, Susana

Galaxy Clusters: (chairp.: G. Granato) - Conference room (14:30 - 16:10)

time	[id] title	presenter
14:30	[30] About the impact of baryons on the cluster mass function: Fitting formula and cosmological implications	SARO, Alex
14:55	[8] Anisotropic thermal conduction in galaxy clusters	ARTH, Alexander
15:20	[9] Music and Music-AGN clusters	YEPES, Gustavo
15:45	[10] The nIFTy comparison project	SEMBOLINI, Federico
