The italian way to AO: Invited (11:10 AM - 3:05 PM)

| time | [id] title | presenter |
|----------|---|-----------------------|
| 11:10 AM | [S0] Science with Adaptive Optics: flavors and constraints | RAGAZZONI, Roberto |
| 11:45 AM | [M0] ERIS: the new 1-5 μ m Adaptive Optics Instrument extending and enhancing imaging and spectroscopy capabilities for VLT | Dr RICCARDI, Armando |
| 12:10 PM | [M] MAVIS: a Visible MCAO-equipped imager and spectrograph for the VLT | VIOTTO, Valentina |
| 12:35 PM | [M] MAORY - MICADO : the winning combination for next generation diffraction limited observations | Dr CILIEGI, Paolo |
| 1:00 PM | Pranzo | |
| 1:50 PM | [M1] The LBT suite of operational AO instruments | BUSONI, Lorenzo |
| 2:15 PM | [M] SHARK-NIR: the coronagraphic camera getting ready for the first-light at the LBT | BERGOMI, Maria |
| 2:40 PM | [M2] SHARK-VIS: the new high-contrast optical imager for the LBT | Dr ANTONIUCCI, Simone |
