Spectropolarimetry of core collapse supernovae: 35 years and counting

Tuesday, 30 August 2022 12:15 (30 minutes)

I will give a brief overview of what spectropolarimetry has taught us about core collapse supernovae and stripped envelope supernovae, as well as highlight what I see as being the main challenges/issues that now need to be addressed to take us to the next level.

Primary author: Dr STEVANCE, Heloise (Department of Physics, The University of Auckland)

Presenter: Dr STEVANCE, Heloise (Department of Physics, The University of Auckland)

Session Classification: Polarization and supernovae, novae and kilonovae
